

**Zenar Corporation**  
4102 Bishop Lane, Suite D  
Louisville, KY 40218

# **ZENAR CORPORATION**

*COST EFFECTIVE  
SOLUTIONS FOR  
OVERHEAD  
MATERIAL HANDLING*

In today's competitive market place, we know we can give you the finest overhead cranes and accessories for your capital expense dollars. Most importantly, our service does not end with the sale, or even after installation. Zenar can provide the technical service and support should the unexpected arise. Zenar's factory-trained service technicians are responsive and qualified to resolve almost any crane-related problem quickly and efficiently.

## **SERVICE**

Zenar can also provide routine maintenance and planned outage trouble-shooting evaluations upon request.

Zenar's trained technicians can advise you on upgrading or rebuilding your present crane system.

Additional Services Include:

- Rebuilding Cranes
- Rebuilding Hoists
- Control Conversions
- Crane Modernizations
- Emergency Breakdown Parts & Service
- Local Service

We offer 24 hour technical support on trouble-shooting electrical and mechanical emergencies.

## OSHA INSPECTIONS, TESTING AND TRAINING

Federal regulations mandate that overhead cranes and material handling equipment be given a **Periodic Inspection** on the following schedule:

Normal and Heavy Duty - Yearly    Severe Duty - Quarterly

- Factory-Trained & Experience Service Technicians
- Inspections, Testing & Training as Required by ANSI & OSHA Standards
- Testing & Certification of Hoists, Cranes & Bridge Crane Systems
- On-Site Quality Operator Training for your Team in Crane Operations

Call our Service Department today for a quote and scheduling, if required.

## PARTS STOCKED / MADE

Parts and service go hand-in-hand. Because Zenar often manufactures its own parts, it is uniquely able to stock virtually all of the standard parts and components required of its material handling systems. Furthermore, because of its capabilities, Zenar can remanufacture older, out-of-stock parts from either blueprints or existing parts themselves. This service includes reproducing parts for almost any overhead crane made in the U.S.

Visit our website for promotional pricing information.
